**CENTRAL COMMITTEE FIOM-CGIL  
14<sup>TH</sup> FEBRUARY 2012**

**FINAL STATEMENT**

The Central Committee Fiom-Cgil holds 8 hours general strike Friday 9th of March with a national demonstration in Rome.

The demonstration of Saturday 18<sup>th</sup> is suspended and a General Assembly of shopstewards will take place in Rome.

We want to reaffirm all the reasons of the demonstration of 18<sup>th</sup> but underline:

- 1) We reject any change in the art.18 (avoid the unfair dismissal) as it is the main element of dignity and freedom in the work.
- 2) Rights in the work, defend the employment, creation of new jobs, are the real economic, social and political priority. We need to reduce precarious employment, extend the rights, defend the income and the social security, avoid the gender discrimination and discuss the last new modifications of the pension system.
- 3) We ask for an extraordinary plan of public and private investments to relance our industrial system based on vocational training, innovation and environmental sustainability.
- 4) We want to regain the National contract and requalification of the collective bargaining through a real democracy and representativeness in the right of freedom for the union in all workplace starting from Fiat.

The General strike has the meaning to fight against the Fiat and employers association' choices. We consider the choices of Italian government wrong as they don't intervene on the reasons that produced the crisis but they simply cut the Social State, privatizing and attacking the labour rights.

The Central Committee support the Action day of 29 of February held by Etuc but it consider necessary that the borning new European Industrial Federation propose an initiative that combines all the union struggles to ask a different Europe founded on employment and democracy.

Approved with unanimous votes
