

8-HOUR STRIKE ACTION ON THE 7TH NOVEMBER

Because

The prices increase in euro and we are paid in lire and with the separate agreement in cents

Because

The workers are persons and not goods, to be rent, bought, sold, wrecked as contained in the law n° 30 and all the new working legislation

Because

In 8 hours we must work for 8 hour and not 12 hours

Because

Who has suffered damages from asbestos must go on pension first

Because

In the plants the work is very hard and increasing the pension age limit will affect those who work more and those with temporal jobs

Because

The workers pay all the taxes to the government while the government approved a law on TAX AMNESTY for taxes evaders

Because

The welfare state, health, pension, are our fundamentals conquests and we want to preserve them for the new generation, and not give away to speculation and businesses

Because

Every measure is on the shoulders of the workers and too much has been decided against the workers

Because

All the people have the right to vote. The immigrants at the election, the metalworkers on their collective labour agreement

Because

We want a fair wage, rights, democracy, **A GOOD COLLECTIVE LABOUR AGREEMENT**

Because

We want our voice to be heard

**all at Rome
on the 7 November**
