

FIOM-CGIL demonstration on 16th of October

Dear Colleagues

The hard suffered Greek Metalworkers express their solidarity in your struggle in 16<sup>th</sup> of October and wish you every success.

We in Greece are already experiencing the past ten months, the hard unpopular measures that have imposed to us by the IMF and the ECB and have frozen for three years our Collective Labor Agreements, have increased the unemployment to 15% and inflation at 5.5%.

For these reasons we have realized 9 strikes.

Dear Colleagues we are the European experiment.

Your resistance and victory will be victory of all the Greek workers!

Con fraterni saluti

Yiannis Stefanopoulos

President of POEM
