Sabina Petrucci

Re: Birlesik Metal-Is Solidarity with Electrolux Metalworkers

Dear Colleagues,

On behalf of the Birlesik Metal-Is I would like to express my full support to the Electrolux workers' general strike and national demonstration which will be held on 4 April 2008 in Florence.

We totally agree with the demands of the FIM-FIOM and UILM and we think that it is very important to show this willpower of strike in Electrolux group.

We support your demands:

- Not to close the plant in Florence or any other in Italy
- To change the plans linked with the reorganization of cold production in Italy in a way to prevent massive reduction of workforce of Susegana
- To discuss industrial strategy of Electrolux group in Italy and Europe
- To reach an agreement aimed to strengthen the presence of multinational companies in Italy.

We are with you at your struggle and wish you success.

Your fight is our fight!

In solidarity

General Secretary

Selcuk Goktas
