

Networks

Helmut Lense

**Director
Automotive Department**

IndustriALL Strategy

- Creation and developing of company networks to the point of agreed Global Union Networks on Company level
- Step by step inclusion of new plants from different countries
- Mutual information and support
- Contracts at Global Framework Agreements (GFA) to affect the supply chain.
- Support in organizing campaigns
- Developing of union work in particular countries
- Share of information about New Technologies in the automotive sector and their affects to skills and work places
- Common understanding how to deal with particular issues e.g. « precarious work »
