

22ND OF JULY STRIKE IN THE LUCCHINI SEVERSTAL GROUP TO PRETEND AN INDUSTRIAL PLAN AND A FUTURE FOR THE COMPANY

The 31 of March Severstal scorporated Lucchini from his quarter balance classifying it as "discontinued operation" waiting for the sell.

This situation put a lot of problems for the future of Lucchini.

Now Alexey Mordaschov bought for 1 euro from Severstal the 50.8% of Lucchini. He became the control stakeholder with full power.

It is some months that Mordaschov is looking for some buyer but he couldn't find any offer.

It seems that the decision of Mordaschov is to abandon Europe and concentrate the investments in US.

Only in Italy 4000 workplaces are affected by this situation

The Italian unions call for a strike and demonstration in all Lucchini Severstal plants in Italy.

The biggest will be in Piombino the 22nd of July.

The 29 of July a meeting has been organized by the Ministry of Industry in Rome. The unions asked for the participation of Mordaschov.

The Italian delegates are strictly in contact with the French colleagues.

After the 29 we will organize joint meeting and mobilization.
