Object: solidarity with ThyssenKrupp Turin workers

Vincennes, 12 December 2007

Dear Friends,

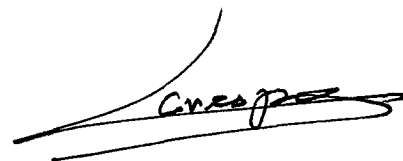

We have just been informed of the terrible tragedy which occurred in ThyssenKrupp plant of Turin that cost already the life of four workers and severely injured several others.

We are very shocked by the conditions of this accident and the attitude of the ThyssenKrupp management.

This terrible tragedy shows the difficulties that we all have to make respect the minimums basic rights of safety at work.

On behalf of the CFTC Metal Executive committee, I would to express you, the victim's families and all Turin ThyssenKrupp workers all our sympathy and solidarity.

In solidarity,

Joseph Crespo
President
