

To all immigrants

In March the government approved the **project for a new law** which is going to change the Bossi-Fini law. The proposal contains some **improvements**:

- The stream decrees and the possibilities to entry in Italy increase;
- The residence permit's term becomes longer;
- The "sponsor" to be allowed to entry in Italy in order to work is reintroduced;
- The right to vote in communal elections after five years' residence is provided;

But there are also some **negative** aspects:

- The Temporary Permanence Centres are maintained (even if reduced);
- No act of indemnity for clandestines is provided;
- The proxy to communes of the residence practises is not clearly provided;

Moreover, there is the risk that the passage of the new law will require **a long time**.

In the meantime:

- The life and work conditions of immigrants are **still** regulated by the Bossi-Fini law;
- A year later the applications of the **2006 stream decree** still haven't been regularized;
- The **"by post" permit** came into force, and it has become a robbery;
- The promised laws on the **right of asylum** and **citizenship** aren't mentioned;
- In Lombardia and in other regions regional racist measures came into force against the **phone centers**.

We immigrants have to make people listen to our voice.

- We are asking for a **really new law and within certain times**
- We are asking to **cancel the robbery of the "by post" permit**
- We are asking for the **"act of indemnity"**

**To get to know and deepen the government's bill,
To decide the mobilization's objectives together:**

**Saturday 14th April, 4 p.m.
BERGAMO, Sala "Lama"
Sede Cgil-Bg, Via Garibaldi 11**
