# **DEMONSTRATION - PARMA AND PROVINCE**

**Saturday 8 November 2008 15h**

**Assembly: Barriera Repubblica  
Ending: Piazzale Picelli**

**New poverty, social integration and security.**

We are asking for:

- Better social services to help young and old, families, and weaker sections of society;
- Secure employment prospects and sustainable development, and an end to the black market in jobs;
- Proactive reception policy for immigrants;
- Housing policy for people, not property speculators;
- Schools promoting peaceful coexistence and equal opportunities;
- Town Hall budgets in 2009 with increased funding for social inclusion and families, across the province, including Parma;
- Better integration policy and simplified procedures for family reunification;
- No separate classes for immigrant children;
- An end to the big problems for immigrants caused by delays in renewing permessi di soggiorno and not paid for by the state; finding jobs and accommodation, obtaining credit, travelling within Europe and breaks in health insurance.
